

7. Brief resume of key persons, specialists, and individual consultants anticipated for this project.

**ROOF CONSULTING
SERVICES, INC.**

**DEAN BAZACO
PROJECT MANAGER
PROJECT INSPECTOR**

Project Assignment: Project Manager, Project Inspector, Non-Destructive Expert

Education: 3 years / Marketing

Years Experience With This Firm: 5

With Other Firms: 20

BASIS OF TEAM SELECTION

- Worldwide Experience at Numerous Department of The Navy Facilities
- Extensive Knowledge Performing Roof Condition Evaluations, Non-destructive Roof Moisture Testing and Roof Repair / Roof Replacement Design Specification Writing

Mr. Bazaco has more than 25 years of experience in the roofing industry, including specification writing, warranty claim repair, construction management, and nondestructive roof moisture and condition evaluation. He has performed extensive roof construction management/diagnosis for the Federal government, municipalities, and private sector clients. He has managed roofing projects worldwide, including facilities in the United States, Asia and Europe.

Roof Construction Management, Philip Morris, Malaysia - Project manager for roof construction management for a manufacturing facility in Seremban, Malaysia for Philip Morris Company/Fluor Daniels Construction Phases I & II - Approximately 250,000 Sq Ft of specialized metal roofing. Construction managed major retro-work of in-progress installation, project close-outs and non-destructive evaluations (Infrared Moisture Surveys).

Roof Construction Management, Motorola/Seimens, VA - Project manager for roof construction management and full-time quality control inspection for Motorola/Seimens White Oak Semi-Conductor facility in Sandston, Virginia. Project consisted of six full-time quality control inspectors for specialized roof decking and fully adhered fleece backed PVC membrane system and accessories.

Warranty Claim Management, Goodyear/Versico - Approximately 250-300 projects were inspected for repair/replacement roof construction management and issuance of Scopes of Work. Projects included national and international boundaries.

Relevant Project Experience

Indefinite Quantity Contract and Sub-Contracting Experience for Specialized Roof Inspections and Analysis, U.S. Navy Installations Worldwide - Comprehensive visual and non-destructive roof evaluations of Naval Facilities - United States and International locations - Multiple facilities per location.
